QYK is world's first platform to buy, stock & consumer alcohol on the cloud! Yes we are the UBER for alcohol industry. Our vision is to create a new Decentralized Ecosystem for Alcohol Industry thereby connecting Consumers, Bars, Distributors and Suppliers using PATENTED blockchain technology.

BUSINESS OVERVIEW

Consumer Pain points

- High prices of drinks at bars
- No freedom of buying partial bottles at same prices
- Forced to prepay & stock bottles to enjoy low prices
- No way of buying bulk alcohol for consumption anywhere

Bar Merchants Pain points

- No automated way to track inventory at bars
- High costs of supplies as distributors monopolize markets
- Huge costs to stock hundreds of alcohol varieties
- No way to fulfil small orders of high movers instantly

QYKTrade Blockchain :

World first decentralized ecosystem for Alcohol Industry connecting Consumers, Bars, Distributors and Suppliers using PATENTED blockchain technology. With QYKTrade we want to establish the fundamentals of an ecosystem that is accessible to all with all functionalities of the system and with business potential to disrupt the way alcohol is today selected, consumed, stocked, ordered and traded across the globe.

QYK Tokens:

QYK proposes the use of a native crypto: QYK Tokens (QYK), in order to incentivize the stakeholders and community members for the sales they make, services they provide, and to facilitate financial transactions between acting parties on the QYK network.
